<b>Office Action Summary</b>	Application No. 10/807,887	Applicant(s) GORE ET AL.	
	Examiner Kevin M. Picardat	Art Unit 2822	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-16 and 24-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Zappella et al. US 6,297,069.

Zappella et al. discloses a method of forming an electronic device having a chamber including preparing an outer surface on a solidified bifunctional core material in a depression formed in a substrate, (see fig. 10) Zappella et al. states in steps 210-230 of applying a supporting material to a cavity of a substrate, and curing the material, thus preparing an outer surface. Next Zappella et al. discloses establishing a layer on the outer surface and a portion of the substrate surrounding the depression to define a chamber, in step 250, Zappella et al. deposit a layer of material on the support material and substrate thus forming a chamber, and changing the state of the support (core) material to a fluid and removing it from the chamber, and where the material can be a low melting point wax (see Col. 12, lines 13-36).

### ***Response to Arguments***

Applicant's arguments filed 17 May 2007 have been fully considered but they are not persuasive. Applicant argues that two different layers are established on or in two different surfaces of the substrate. The examiner contends that the claims do not

distinguish any specific surface and thus the steps of figure 10 read on the claims. Again in fig. 10, Zappella et al. discloses applying a supporting material to a cavity (210), curing the material, thus preparing the surface (230), the examiner is taking the prepared surface to be the surface exposed after the removal of the structure from the work surface, and establishing a layer on the prepared outer surface of the supporting material and a portion of the substrate (250), and removing the supporting material.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M. Picardat whose telephone number is 571-272-1841. The examiner can normally be reached on Monday-Thursday 7:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zandra Smith can be reached on 571-272-2429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
